Iron Dawg Workouts are Underway!!!!

School is out, vacations are being taken and summer activities are in full swing.

May was a good month for the Bulldog program. Spring practice was physical with a lot of good things being seen on the field. A few serious injuries did occur but that does happen in this sport. With this being such a physical sport, it is imperative that your son attends morning workouts. Being strong and in great condition will not prevent all injuries but the numbers will be significantly lower than not attending these workouts at all. Be sure to check the calendar from Coach Bennett for times and make up days for the Iron Dawg workouts. Mother's camp went extremely well as over 40 moms took to the field to experience a small taste of football. After seeing some of the moms on the gridiron, I would not want to have them mad at me! It was pretty intense.

One thing I need to mention is that along with the administration, Coach Bennett and I have decided that stadium seating will not be installed this season. With finances being a main concern this year, we felt it would not be a prudent thing to spend the amount of money that would be required. This is still a desire of the program and hopefully can be obtained next year.

If you have not sent your dues in, please do so as soon as possible. Sponsorships are still the best way offset these costs. Please continue to sell sponsorships even if you have sold enough to cover your own child. We have an aggressive budget so every little bit will help. The card sales were again a success and thanks to everyone that helped with this.

I would also like to recognize Taylor Bradford, Austin Redd, Drew Johnson and Mikey Brannon for receiving the \$1000.00 scholarships.

Be sure to check your email for information and opportunities for volunteering. Soon, I will be looking for workers to pressure wash and do some painting at the stadium. A little house keeping is in order. The Bulldogs will be welcoming a whole new region to our stadium so let's do our part to show them a first class operation.
